Paterson, J. J. "Berceuse profane." December 1914
(104)

December 11th, 1914

Rev. J. J. Paterson,

112 Charlotte Street,

Sarnia.

Dear Mr. Paterson:

Many thanks for your note in which you state that you approve of the action that I was forced to take with regard to the German professors. All I wish is to give them fair play. So far I have seen nothing to show that they were misusing their positions, and I hope that it will not be necessary for us to lose their services permanently. Of course if the Province through its representatives were to say that Germans were not to be employed we should yield to that decision. With kind regards, I am,

Yours sincerely,

President.
